Documentation and analysis

AGENT PANEL FEATURES

1. Authentication & Registration

Feature	Endpoint	Description
Agent Registration	POST /api/v1/auth/register	Self-registration with company details
Agent Login	POST /api/v1/auth/login	JWT-based authentication
Get Current User	GET /api/v1/auth/me	Retrieve logged-in agent info

2. Profile Management

Feature	Endpoint	Description
View Profile	GET /api/v1/agents/profile	View agent profile details
Update Profile	PUT /api/v1/agents/profile	Update company name, mobile, etc.

3. Dashboard

Feature	Endpoint	Description
Dashboard Stats	GET /api/v1/agents/dashboard	View today's bookings, revenue, pending bookings

4. Flight Search & Booking

Feature	Endpoint	Description
Get Sectors	GET /api/v1/flights/sectors	Available routes and dates
Search Flights	POST /api/v1/flights/search	Search by origin, destination, date
Reprice Flights	POST /api/v1/flights/reprice	Validate and lock fare
Get SSR	POST /api/v1/flights/ssr	Ancillary services (meals, baggage)
Get Seat Map	POST /api/v1/flights/seatmap	Seat selection interface
Get Airlines	GET /api/v1/flights/airlines	List of supported airlines
Get Airports	GET /api/v1/flights/airports	Airport directory

5. Booking Management

Feature	Endpoint	Description
Create Booking	POST /api/v1/bookings/create	Create temp booking (PNR)
Confirm Booking	POST /api/v1/bookings/confirm	Pay and issue ticket
View Booking	GET /api/v1/bookings/:refNo	Get booking details
Booking History	GET /api/v1/bookings	List all bookings
Cancel Booking	POST /api/v1/bookings/:refNo/cancel	Cancel a booking
Release PNR	POST /api/v1/bookings/:refNo/release	Release blocked PNR
Add SSR Post-Booking	POST /api/v1/bookings/:refNo/ssr	Add ancillary services after booking

6. Wallet Management

Feature	Endpoint	Description
View Balance	GET /api/v1/wallet/balance	Current wallet balance
Transaction History	GET /api/v1/wallet/transactions	Credit/debit history

Agent Panel Menu Structure

ADMIN PANEL FEATURES

1. Groups Management

Feature	Endpoint	Permission	Description
View Groups	GET /api/v1/admin/groups	groups.view	List all agent groups
Create Group	POST /api/v1/admin/groups	groups.create	Create new group with default scheme
Update Group	PUT /api/v1/admin/groups/:id	groups.edit	Modify group settings
View Group Agents	GET /api/v1/admin/groups/:id/agents	groups.view	List agents in a group

Group Properties: - Group Name & Code - Description - Parent Group (hierarchical) - Default Scheme - Credit Limit - Active Status

2. Schemes Management

Feature	Endpoint	Permission	Description
View Schemes	GET /api/v1/admin/schemes	schemes.view	List all commission schemes
Create Scheme	POST /api/v1/admin/schemes	schemes.create	Create new scheme

Feature	Endpoint	Permission	Description
Update Scheme	PUT /api/v1/admin/schemes/:id	schemes.edit	Modify scheme settings
Get API Config	GET /api/v1/admin/schemes/:id/api-config	schemes.view	API configurations per scheme
Update API Config	PUT /api/v1/admin/schemes/:id/api-config	schemes.edit	Modify API configs
Get Airline Rules	GET /api/v1/admin/schemes/:id/airline-rules	schemes.view	Airline-specific rules

Scheme Properties: - Scheme Name & Code - Domestic Flight Settings: - Service Fee (Flat/Percentage) - Markup on Base Fare - Commission Share % - International Flight Settings: - Service Fee (Flat/Percentage) - Markup on Base Fare - Commission Share % - Tax Settings: - GST (Enable/Rate) - TDS (Enable/Rate) - General Settings: - Allow Credit - Max Credit Limit - Auto Ticket - Block Ticket Allowed - Block Ticket Duration

3. API Providers Management

Feature	Endpoint	Permission	Description
View Providers	GET /api/v1/admin/api-providers	apis.view	List API providers
Create Provider	POST /api/v1/admin/api-providers	apis.create	Add new provider
Update Provider	PUT /api/v1/admin/api-providers/:id	apis.edit	Modify provider settings
Get Airlines	GET /api/v1/admin/api-providers/:id/airlines	apis.view	Configured airlines
Update Airlines	PUT /api/v1/admin/api-providers/:id/airlines	apis.edit	Update airline config
Get Fare Commissions	GET /api/v1/admin/api-providers/:id/fare-commissions	apis.view	Commission by fare type

Provider Properties: - Provider Name & Code - Provider Type (GDS, LCC_DIRECT, CONSOLIDATOR) - API Credentials (URL, User ID, Password, Key) - Contact Details (Actual) - Masked Contact Details (for agents) - Base Commission (Domestic/International) - Settings (Active, Test Mode, Timeouts)

4. Agents Management

Feature	Endpoint	Permission	Description
View Agents	GET /api/v1/admin/agents	agents.view	List all agents with filters
View Agent Details	GET /api/v1/admin/agents/:id	agents.view	Detailed agent info

Feature	Endpoint	Permission	Description
Create Agent	POST /api/v1/admin/agents	agents.create	Admin-created agent
Update Agent	PUT /api/v1/admin/agents/:id	agents.edit	Modify agent details
Update Status	PUT /api/v1/admin/agents/:id/status	agents.block	Approve/Suspend/Block
Assign Group	PUT /api/v1/admin/agents/:id/assign-group	agents.edit	Change group/scheme
Reset Password	POST /api/v1/admin/agents/:id/reset-password	agents.edit	Send new password

5. Agent Signup Approvals

Feature	Endpoint	Permission	Description
View Requests	GET /api/v1/admin/signup-requests	agents.approve	Pending signups
Request Details	GET /api/v1/admin/signup-requests/:id	agents.approve	Full signup info
Mark Under Review	PUT /api/v1/admin/signup-requests/:id/review	agents.approve	Start review
Approve Signup	POST /api/v1/admin/signup-requests/:id/approve	agents.approve	Create agent account
Reject Signup	POST /api/v1/admin/signup-requests/:id/reject	agents.approve	Reject with reason

Approval Workflow: 1. View pending requests 2. Review KYC documents (PAN, GST, Aadhaar) 3. Assign Group and Scheme 4. Set initial credit limit 5. Approve → Credentials sent via Email/WhatsApp

6. Wallet Management

Feature	Endpoint	Permission	Description
View Agent Wallet	GET /api/v1/admin/agents/:id/wallet	wallet.view	Balance & history
Credit Wallet	POST /api/v1/admin/agents/:id/wallet/credit	wallet.credit	Add funds
Debit Wallet	POST /api/v1/admin/agents/:id/wallet/debit	wallet.debit	Manual adjustment

7. Bookings Management

Feature	Endpoint	Permission	Description
View All Bookings	GET /api/v1/admin/bookings	bookings.view	Filtered booking list
Booking Details	GET /api/v1/admin/bookings/:id	bookings.view	Full booking info

Filters Available: - Agent ID - Group ID - Status - Date Range - PNR/Booking Reference Search

8. Tax Configuration

Feature	Endpoint	Permission	Description
View Tax Config	GET /api/v1/admin/tax-config	settings.view	Tax rules
Create Tax Config	POST /api/v1/admin/tax-config	settings.edit	New tax rule

9. Dashboard & Reports

Feature	Endpoint	Permission	Description
Dashboard Stats	GET /api/v1/admin/dashboard	-	Overview metrics
Booking Reports	GET /api/v1/admin/reports/bookings	reports.view	Booking analytics
Revenue Reports	GET /api/v1/admin/reports/revenue	reports.view	Revenue analytics

SUPER ADMIN PANEL FEATURES

The Super Admin has ALL permissions plus additional system-level controls:

Exclusive Super Admin Features

Feature	Description
Full Permission Access	['*'] - All permissions granted
Admin User Management	Create/Edit/Delete admin users
Role Assignment	Assign roles to admin staff
Permission Management	Configure permission sets
System Settings	Configure global settings
Audit Log Access	View all system activity

Admin Roles Hierarchy

SUPER_ADMIN (Full Access)

ADMIN (Extended Access)

All features except admin management

MANAGER (Limited Admin)

Agents, Bookings, Reports

STAFF (Basic Access)
View-only permissions

Permission Categories

Category	Permissions
AGENTS	agents.view, agents.create, agents.edit, agents.approve, agents.block
GROUPS	groups.view, groups.create, groups.edit
SCHEMES	schemes.view, schemes.create, schemes.edit
APIS	apis.view, apis.create, apis.edit
BOOKINGS	bookings.view, bookings.cancel
WALLET	wallet.view, wallet.credit, wallet.debit
REPORTS	reports.view, reports.export
SETTINGS	settings.view, settings.edit

DATABASE SCHEMA OVERVIEW

Core Tables

Table	Purpose
groups	Agent groups with shared settings
schemes	Commission/markup rules
scheme_api_config	API settings per scheme
scheme_airline_rules	Airline-specific rules per scheme
api_providers	Flight API provider configuration
api_provider_airlines	Airlines per provider
api_provider_fare_commissions	Fare type commissions
agents	Agent accounts and profiles
agent_group_history	Group change tracking
agent_signup_requests	Self-registration queue
tax_configurations	Tax rules
bookings	Booking records
booking_passengers	Passenger details
booking_segments	Flight segments
wallet_transactions	Financial transactions
notification_templates	Message templates
notification_logs	Sent notifications
admin_users	Admin accounts
admin_permissions	Permission definitions
audit_logs	System audit trail

API ENDPOINTS SUMMARY

Public Endpoints

POST /api/v1/auth/register - Agent registration
 POST /api/v1/auth/login - Agent login

Agent Endpoints (Authenticated)

GET /api/v1/auth/me - Current user
 GET /api/v1/agents/profile - View profile
 PUT /api/v1/agents/profile - Update profile
 GET /api/v1/agents/dashboard - Dashboard stats

GET /api/v1/flights/sectors - Available sectors
 POST /api/v1/flights/search - Search flights
 POST /api/v1/flights/reprice - Validate fare
 POST /api/v1/flights/ssr - Get ancillaries
 POST /api/v1/flights/seatmap - Seat map
 GET /api/v1/flights/airlines - Airlines list
 GET /api/v1/flights/airports - Airports list

POST /api/v1/bookings/create - Create booking
 POST /api/v1/bookings/confirm - Confirm & ticket

GET /api/v1/bookings/:refNo - Booking details
GET /api/v1/bookings - Booking history
POST /api/v1/bookings/:refNo/cancel - Cancel
POST /api/v1/bookings/:refNo/release - Release PNR
POST /api/v1/bookings/:refNo/ssr - Add SSR

GET /api/v1/wallet/balance - Wallet balance
GET /api/v1/wallet/transactions - Transaction history

Admin Endpoints (Admin Auth + Permissions)

Groups

GET /api/v1/admin/groups
POST /api/v1/admin/groups
PUT /api/v1/admin/groups/:id
GET /api/v1/admin/groups/:id/agents

Schemes

GET /api/v1/admin/schemes
POST /api/v1/admin/schemes
PUT /api/v1/admin/schemes/:id
GET /api/v1/admin/schemes/:id/api-config
PUT /api/v1/admin/schemes/:id/api-config
GET /api/v1/admin/schemes/:id/airline-rules

API Providers
